

Solar Carport Gasket

Part No.: 5819064

The Preformed Line Products Solar Carport Gasket uses EPDM to help create a water-resistant barrier between solar panels that are spaced $\frac{3}{4}$ " apart. The triple rib design helps create a tight seal to keep anything under the structure dry.

Key Features:

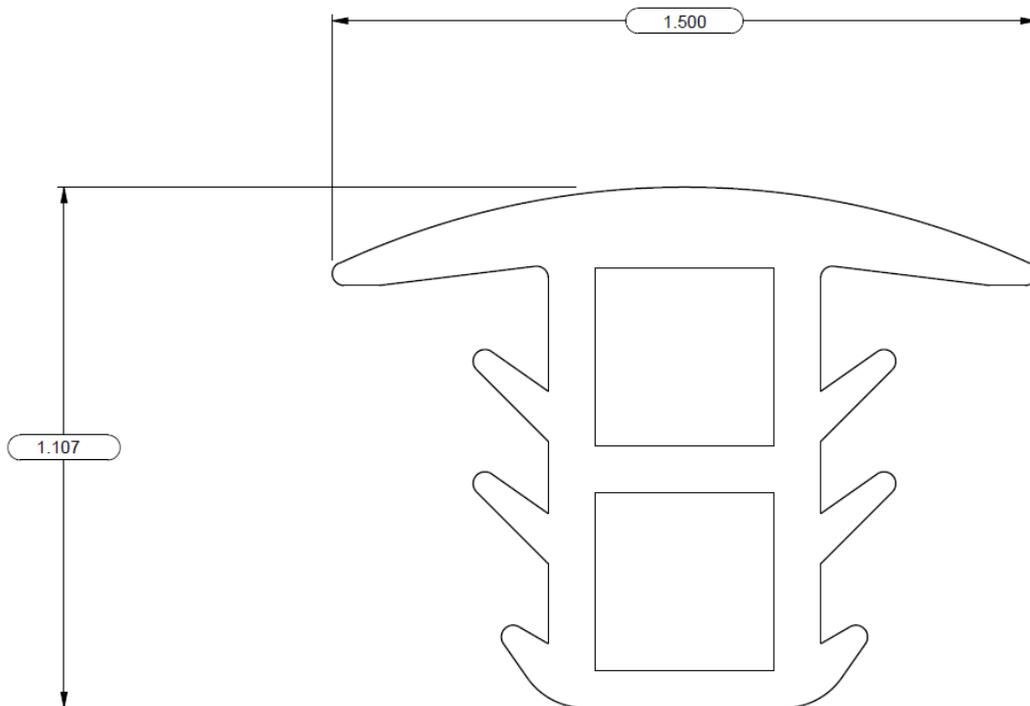

Optional Gasket

- EPDM material
- No tools required
- Triple rib design for added waterproofing
- Can easily cut with a utility knife

↖ Designed for $\frac{3}{4}$ " Spacing

Specification:

Packaging:

- Material is pre-cut to 10.125 ft. lengths to allow for convenient packaging and easier handling of the material.
- Each box contains 16 strips for a total of 162 linear feet of gasket.

Ordering and Pricing:

- The gasket must be purchased in full boxes, 162 ft. at a time. No broken cartons will be allowed at this time.
- Use part number 58109064 for orders or inquiries.
- To order and receive discounted pricing, please reach out to the sales rep in your area for more information.
